

District Provided Professional Development Days at Ionia Public Schools All events total 6 hours unless otherwise noted. (DPPD must be logged prior to July 1, 2020. Professional development after July 1, 2020 will be logged as SCECHs.)

\*\*Each teacher is responsible for documenting their training on the forms required by MDE. These forms are available through MOECs. After getting the signature of the building principal, all data to be used for certification must be entered into MOECs under the individual teacher's account.

\* If a teacher attends another professional development that they want to include on their DPPD record, please email Curriculum Director, Jen Burns at [jburns@ioniaschools.org](mailto:jburns@ioniaschools.org) with the description and title. This will need to be documented to include in your DPPD tracking log for verification by your principal. Failure to do so may cause a discrepancy in your total number of hours. Districts have the authority to declare training as DPPD. Curriculum meetings are not included in this list, but are considered DPPD.
